@iDiscoveryInc

At iDS, Michael is responsible for business development and assisting with forensics and cyber initiatives, specializing in in digital forensics with a focus on mobile forensics.

Michael has over ten years' experience in digital forensics and information technology investigations and project management. He has extensive experience with large scale corporate matters as well as in-depth government and law enforcement experience. In addition, Michael has court and testimony experience and has been entered as a Digital Forensics Expert in local, state and federal court. Michael is also recognized as a Subject Matter Expert (SME) for mobile devices by the US Department of Defense.

Michael was Born and raised in Queens, NY, where he currently lives with his wife and 1 year old child. In his free time, Michael enjoys basketball, watching Formula 1 racing, reading, cooking, music, and spending time with his family.

"Labels don't really impress, it's the uniqueness and risk in decor that inspire." I think this quote holds true for iDS not following the industry, with constant work towards innovation and unique quality. By leading and not joining the pack, iDS, and by extension myself, are seen as innovators, trailblazers, and modernizers.
