BOBBY R. WILLIAMS, JR.

Director
DEI Committee Chairperson

Mr. Bobby R. Williams, Jr., a Director based in the Washington, DC office of iDiscovery Solutions, Inc. (iDS), has extensive experience supporting litigation and law enforcement professionals as a consultant, technologist, and expert, since 2001. He has played an integral role in a wide variety of digital forensics matters, as well as execution of trial preparation and evidence presentations for legal teams throughout the country.

Utilizing his unique skills and knowledge of the entire EDRM lifecycle, Mr. Williams, a GIAC Certified Forensic Examiner (GCFE) and EnCase Certified Forensic Examiner (EnCE), collects digital evidence, aids the development and administration of structured data systems. This is all done while providing consultation for litigation, investigations, cybersecurity and strategies for expert testimony.

SELECT CONSULTING EXPERIENCE

- Developed and oversaw the execution of workflows in which hundreds of terabytes of data were preserved, forensically processed, deNisted, filtered and culled to limit cost prior to conventional downstream processing and subsequent review. Managed these tasks for private companies and government organizations, including the Department of Justice and The Commodity Futures Trading Commission.
- Provided expert testimony – both written and live - in multiple proceedings, submitting valuable information to be considered by the finders of fact.
- Developed and executed defensible deletion strategies to help prevent theft of intellectual property and loss of trade secret data.
- Collected website and social media data (including Facebook, Twitter, and Instagram) utilizing an array of forensic tools. Coordinated with programming resources to convert exported social media data into a format compatible with data review platforms.
- Executed end-to-end technical management of multiple projects including, but not limited to, initial consulting, case assessment, evidence collection, evidence intake, forensic analysis, reporting, data extracting, data staging, processing, expert report writing and live testimony.
- Collection on hundreds of mobile devices, including quick turnaround projects exceeding 130 devices imaged within 48 hours.
- Consulted on, researched, and prepared multiple declarative statements and draft expert reports subsequent to evidence collections.
- Provided consulting and analysis services requiring the extraction and parsing of structured data, such as from QuickBooks databases. Generated reports for client consumption.

EDUCATION & PROFESSIONAL CERTIFICATIONS
