DAN REGARD

Founder and CEO

Mr. Regard is an electronic discovery and computer science consultant, with extensive experience consulting for legal and corporate entities since the early 1990s. A programmer and an attorney by training, Mr. Regard has conducted system investigations, created data collections, and managed discovery on over a thousand matters. He is responsible for the development and implementation of case and matter strategies that leverage technology in litigation and investigations. Mr. Regard has both national and international experience advising on such issues as electronic discovery, computer forensics, structured data, and information management. He is a frequent speaker, teacher, and publisher on issues of electronic discovery.

Prior to founding iDiscovery Solutions, Inc. in 2008, Mr. Regard was the national director of e-Discovery for LECG. He was also the national director of Electronic Evidence & Consulting for FTI Consulting and was an electronic discovery and data analytics team leader in Analytical Dispute Services at Deloitte & Touche, where he managed multi-national, multi-jurisdictional, and multi-counsel litigation support projects. He began his career as the founder of a nationwide litigation-technology company.

Mr. Regard is a member of the Sedona Conference WG1: Electronic Document Retention and Production, and WG6: International Electronic Information Management, Discovery and Disclosure. He is a board member of Georgetown Advanced Institute for e-Discovery, one of the original four founders of the EDiscovery Institute (EDI), and a founding member of the Masters Cabinet. Mr. Regard is the founder of b-Discovery, a monthly e-Discovery networking group that meets throughout the United States.

SELECT COMPUTER FORENSIC EXPERIENCE

- In the international consumer electronics industry, analyzed dozens of computers and databases related to e-tail marketing of counterfeit goods.
- In the military armor industry, analyzed computers, removable devices, and emails related to theft of intellectual property.
- In trucking and transportation, conducted a search and destroy mission to eradicate U.S. military grade design documents from European-based engineering offices.
- Before the international trade commission, located, traced, and remediated the disclosure of privileged documents via FTP configurations and Internet search bots.
- In the financial sector, conducted an in-depth analysis of Microsoft Exchange email and Bloomberg chat messages.
- In medical device industry, testified on the definition, content and functionality of "native format" for emails and other user documents.
- In the insurance industry, analyzed and testified on metadata artifacts related to water remediation cost estimate files.

EDUCATION

- BS in Computer Science, University of Southwestern Louisiana
- JD, Tulane University
- MBA, Tulane University
- Certificate in European Legal Practice, Tulane University
