HUNG HAN

Senior Consultant (GCFE)

Hung plays an integral part in our Consultants team in our Costa Mesa office. His extensive expertise in data management, processing, hosting, document production, and forensic acquisitions positions him as an invaluable asset within our organization.

Specializing in complex cases involving intellectual property, data recovery, and trade secret protection, Hung brings a deep understanding of the Electronic Document and Records Management Systems (EDRMS) life cycle across various technological platforms. As a GIAC Certified Forensic Examiner (GCFE), his expertise is both broad and precise. Before joining iDS, Hung served as a Senior eDiscovery Analyst at Integreon.

Committed to staying at the forefront of technological advancements, Hung ensures our clients receive exceptional service and support. His contributions are essential as we tackle the challenges of eDiscovery and strive for continued success.

"The Forensics work is like whiskey. It comes in many variations, age statements, and you can drink it with any cup of your choosing. If you have a good cup (iDS), it is easier to enjoy it because of the subtle differences."
