Profile on LinkedIn

@iDiscoveryInc

Emerging professional with formal education and training in the field of Digital Forensics and eDiscovery. Trained to implement and follow legalities during discovery and analysis of information stored electronically, protect the security and integrity of information systems and data. Exceptionally organized and able to multitask while solving complex technical problems with software and hardware. Talent for quickly learning evolving procedures and technologies.

Forensic Analysis: Conducted investigation, collection and preservation on multiple data sources including smart phones, computers and other technological devices with leading forensic software. Recovered deleted user data, hidden data, file fragments, and temporary files. Frequently maintained a detailed chain of custody.

eDiscovery: Well versed in collecting and producing electronically stored information from various email platforms and social media sites for examination. Familiar with popular preservation tools to ensure integrity of data. Actively aware of current best-practices, emerging technologies, and solutions in the context of eDiscovery.
