MARK ARAUJO

Relativity Certified Administrator | eDiscovery Specialist | Data Management Expert

With over a decade of experience in the eDiscovery industry, Mark Araujo is a Relativity Certified Administrator with deep expertise in data hosting, review, and production. With a keen technical edge, he excels at navigating the complexities of the eDiscovery process from start to finish, ensuring every project is executed smoothly and efficiently.

At iDiscovery Solutions (iDS), Mark is a trusted leader in managing Relativity workspaces, overseeing project timelines, and ensuring that productions are delivered accurately and on schedule. He is a go-to resource for clients at all stages of the eDiscovery journey, providing technical guidance and troubleshooting support as needed.

Before his transition to eDiscovery, Mark spent seven years working in finance, where he developed a sharp analytical mindset and a strong attention to detail—skills that he applies daily in his role. His ability to balance technical precision with a deep understanding of client needs makes him an invaluable asset to his team.

Originally from Washington, DC, and raised in Maryland, Mark is a proud first-generation American with Portuguese heritage. Outside of work, Mark enjoys spending time with his wife—who also works in the eDiscovery field—their young daughter, and their dog Luna.
