@iDiscoveryInc

Julian Ackert is a Managing Director at iDiscovery Solutions (iDS) in Washington DC, with consulting and project management experience in the technology and litigation industries since the early 2000s.

He has extensive experience with forensic data collection, computer forensic analysis, creating and implementing preservation and collection strategies, managing electronic data processing and review endeavors, analyzing complex transactional data systems, and working with large multi-national corporations to establish and develop methodologies and best practices for litigation preparedness. Mr. Ackert has written expert reports and provided testimony on the forensic preservation, acquisition, and analysis of electronic information. Additionally, he has worked on several international projects involving complex data privacy, collection, and review challenges.

Mr. Ackert is a member of The Sedona Conference, Working Group 11 (Data Security and Privacy Library) and Working Group 12 (Trade Secrets). Prior to joining iDS, he was a Principal and New York regional lead at LECG and a Manager at FTI Consulting. Mr. Ackert began his career designing, developing, and implementing Knowledge Management / Content Management applications, government middleware solutions, and E-business applications for Federal Government services at Accenture.

SELECT CONSULTING EXPERIENCE

- Directed a team of consultants on the identification, preservation, collection and production of structured data for an antitrust MDL. Implemented custom preservation and collection proto-cols and extracted approximately 10 terabytes of structured data from proprietary client data-base systems for analysis and review. Developed a structured data ESI protocol that governed the parameters of structured data productions.
- Managed a team of consultants on the analysis of 100s of millions of database records for a com-plex ligation in the commercial real estate industry. Analyzed trends and patterns in the data-base records that assisted counsel with identifying potentially relevant employees, partner re-lationships, and timeframes of interest.
- Managed a team of UK and US consultants on a data preservation and email data analysis endeav-or. Established an on-site review room in the UK and worked with UK outside counsel to en-sure that electronic discovery processes upheld EU data privacy laws.
- Directed a team of computer forensic consultants and contractors on forensic data preservation, backup tape recovery, email, and electronic file culling and search for approximately 100 cus-todians. Established an onsite triage center at an offshore facility to handle nearly 5 terabytes of data. Authored expert report on the methods, processes, types, and volumes of data pre-served, processed, and delivered for attorney review.
- Led a data analysis engagement consisting of metadata examination on Lotus Notes database documents. Acted as the client's Subject Matter Expert on Lotus Notes databases and au-thored expert testimony on the electronic discovery methods implemented during the project and subsequent project findings.
- Managed investigative team of computer forensic and complex data analysis consultants through the preservation, acquisition, and analysis of over 5 billion rows of NYSE trade data. Analysis period covered over 5 years of transactional data focusing on the alleged fraudulent trading activity. Additional responsibilities included administration of a SQL database containing key transactional trade data.
- Managed a data acquisition, e-file processing, and document review project in response to an SEC inquiry of over 45 custodians. Engagement required leading a multi-city team of computer fo-rensic professionals through the forensic acquisition, electronic data processing, and docu-ment review phase of a project with a condensed project timeline of three weeks.
- Led multi-national electronic discovery preservation and analysis team on an internal audit com-mittee investigation of a global metallurgy company. Engagement required managing com-puter forensic technicians through data preservation, forensic analysis, and automated culling of both Finnish and English enterprise email, financial data, and business documents related to the investigation.

EDUCATION

- University of Virginia, Charlottesville, VA
- School of Engineering and Applied Sciences
- B.S. Computer Science, January 1998
